

4+1

A NEW RHYTHM IN EVERYDAY SCHOOL LIFE

Since its establishment in 1542, Kolding Gymnasium has been a forward-thinking school that has consistently strived to evolve its teaching and learning practices. The new '4+1' model offers you both a daily routine rooted in a strong and supportive community, as well as a more flexible, progressive and real-world education that empowers you to take ownership of your own learning.

A NEW APPROACH TO TEACHING

The name '4+1' refers to the idea that you will have four days of regular teaching and one day devoted to immersion, exploration, collaboration, and real-world learning, both inside and outside the classroom. This '+1' day will take place every Wednesday, where the normal timetable will be suspended to create variety and provide opportunities to dive deeper into both theory and practical learning.

CLASSROOM AND COMMUNITY

You will spend four days a week together with your class, which will help to build a strong sense of community with your classmates, but you will also experience greater flexibility, balance and more opportunities to learn in different settings and ways. In essence, the best of both worlds, structured learning on most days, but more flexibility, focus and freedom on Wednesdays.

Outside class hours, there are SVADA parties, Friday cafés, and extra-curricular activities such as sports, board games, and mindfulness. A chance to make new friends both in and out of the classroom, friendships that will more than likely last beyond your school years.

FOCUS DAYS – TEACHING THAT MAKES SENSE

We know that you learn best when teaching feels relevant and engaging. That's why every second Wednesday will be a Focus Day with projects, experiments, excursions, as well as collaborations with companies and cultural and higher education institutions. This means you get to see how your knowledge is actually used in the real world—you don't just learn for the sake of learning; you learn to apply your knowledge and make a difference.

FLEX DAYS – FLEXIBILITY IN EVERYDAY LIFE

On the other Wednesdays, there will be Flex Days, where you manage your own time. Tasks, experiments, or investigations will be assigned, but when you complete them is up to you. Flex Days give you the freedom to plan your week and take responsibility for your own learning—great preparation for becoming a more independent student and for adult life beyond Kolding Gymnasium.

4+1 OFFERS

- Dedicated time for In-depth study and academic immersion
- Practice-based and real-world learning
- A better school-life balance
- A unique and exciting learning environment
- Development of autonomous learning skills
